

**Long range vehicle
and building access
in one card**

nedap **avi**
long range identification

The long and the short of it.

12ft Range with uPASS Reach (900 MHz UHF)
33ft Range when boosted with Nedap TRANSIT
Standard ISO prox range* with HID prox reader

Dimensions: 2.125" x 3.370" x 0.030"
Operating Temp: -50° to 160° F (-45° to 70° C)
Card Construction: Thin, flexible polyvinyl chloride (PVC) laminate
* range varies with HID prox reader model

Sometimes the best ideas seem to be the most obvious ones.

Ideal for use in vehicle applications, parking to building integration can now be simple and seamless, with one credential granting end-to-end access, from the perimeter throughout the facility.

And Nedap AVI readers output standard configurations from Weigand 26 up through TCP/IP so they integrate with virtually any back-end system.

The Nedap UHF/Prox Combi Card, it's not a new product, it's a new opportunity
